

## SPEC SHEET

# Capsule Filling Machines <228,000 capsules/hour

## CF-M 3200, 3800B/C/E MODELS

### INTRODUCTION

An automatic capsule filling machine is manufactured and designed to directly fill up capsules with pharmaceutical powders without the need for operator involvement.

CF-M 3200, 3800 series automatic capsule filling machines provide high-volume capsule filling solutions between 192,000 capsules per hour and 228,000 capsules per hour.

**KEYWORDS** Automatic capsule filling | high-volume capsule filling | hard capsule | capsule filling

### ATTRIBUTES

- The CF-M 3200 and 3800 models have enclosed turning tables for easy cleaning
- Single movement for both upper and lower segments with two-lip seal provide a much better sealing performance
- A combined air blowing & suction function on segment cleaning station ensures cleaning efficiency at high speeds
- Dust-preventing rubber block on capsule discharge station

### MODEL E HAS THE FOLLOWING CHARACTERISTICS:

- Control system is provided with OPC Server.
- Control system includes FDA CFR211 e-signature and e-recording for work monitoring purposes. Specific user accounts can be created for data and quality management.
- Control system is provided with an industrial grade ethernet interface that connects with the OPC Client.
- A high-capacity hard drive for data recording, meeting current GMP and FDA (Food and Drug Administration) standards.

## TECHNICAL PARAMETERS

Model	CF-M 3200 B/C/E	CF-M 3800B/C/E
Max. Output	192,000 capsules/hour	228,000 capsules/hour
Number of Die Holes	23	27

Machine Specs (All Models)	Filling Dosage Form	Powder, Pellets, Tablet
	Capsule Size	Capsule size 00# - 5# and safety capsule A-E
	Motor Power	6.37kw
	Power Supply	AC 380V; 50Hz
	Noise	≤78dBA
	Vacuum Degree	-0.02~-0.06 MPa
	Compressed Air (clean segment)	Air consumption: 6m <sup>3</sup> /h Pressure: 0.3~0.4 MPa
	Dimensions	1390×1300×2080mm
	Weight	2400kg

Model B

Model C

Model E
